

Speech and Language Therapy

The most helpful activities for you to do with your child are the ones outlined in their personal Speech and Language Therapy programme. These programmes clearly state the activity your child needs in support with, for example, activities may include taking on the speaker or listener role, learning to understand the words we use, or focussing on the production of speech.

Occupational Therapy

Some of the children will also have received their personal Occupational Therapy programmes that supports their gross motor, fine motor and self-care skills. All the children would benefit from moving on in their self-care skills that may include doing buttons and zippers independently. Do they help you to prepare meals and clean up? Are you increasing the variety of their diet.

I watched a webinar on Sensory Processing that I think may be of interest:

<https://www.facebook.com/134048836652129/videos/523055785068199/>

Reading

Please continue to read with your child daily, listen to them read and of course listen to you read by sharing books you have at home that they can't read by themselves. Support your child to read the words that are written on the page and use their phonics to blend unknown words. Talk about the illustrations as you add meaning to the text. You can also download sight words and tricky words from the same webpage you downloaded this. Access to the Phonicsplay website is currently free:

<https://new.phonicsplay.co.uk>

Social Interaction

Playing card and board games as a family promotes the social interaction they need to function with their peers. Learning to take turns, manage stresses such as losing are key learning opportunities for your child to develop and grow. Games like snap or connect four are fun and easy, but some like snakes and ladders as well as go fish.

BBC Bitesize

The BBC is has started daily lessons for all ages. Their link is below:

<https://www.bbc.co.uk/bitesize/primary>

Twinkl have also offered parent free access for a month.

Follow the link: <https://www.twinkl.co.uk/offer> and enter the code: CVDTWINKLHELPS

School Closure Learning Packs by Twinkl for Key Stage One:

Minibeasts and their Micro Habitats

Week 5 – 18th May

Literacy:

Watch The Very Greedy Bee

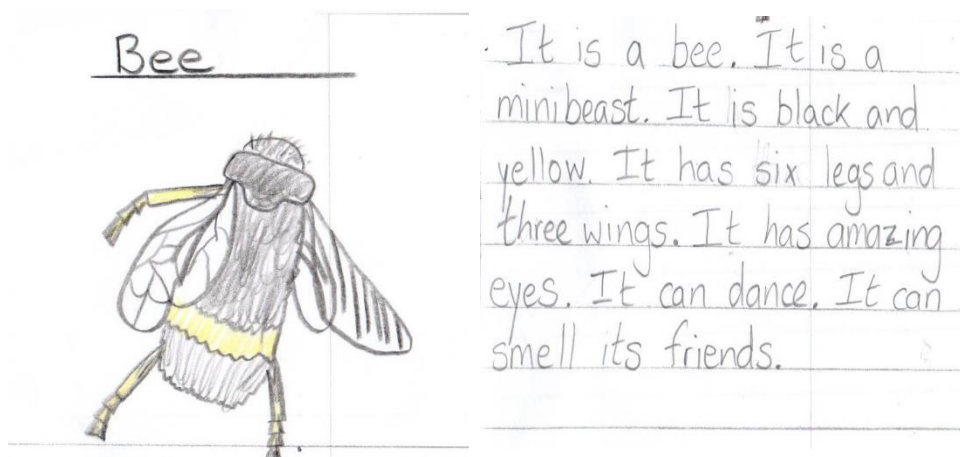

<https://www.youtube.com/watch?v=yw77rwV1LV0>

What do bees do? They get pollen from flowers to make honey and clean the hive.

How did the bee get so fat? By eating too much pollen.

Science, Art and Literacy: Non-fiction report of a bee.

Can they draw and colour a bee from a photograph. Go online and help them choose a bee they would like to write their report on. Explain they are not drawing a cartoon version of a bee, we want it to look real. So important to pay attention to the details. Compare your drawings and say what you like about the others. Then write a report about the bee. E.g. This is a bee. It is a minibeast. It is black and yellow. It has six legs. It likes to fly and make honey. It eats pollen from flowers.

Music: Listen to Flight of the Bumblebee by Rimsky Korsakov

<https://www.youtube.com/watch?v=aYAJopwEYv8>

What did your child think? Can they dance to it? Can they record their dance? Could they make it better by putting it into a plan or sequence? Or define the different actions they use e.g. bottom wiggle, arms spread, tiptoes?

PE: 5-a-day

<https://www.youtube.com/user/5adayTV/videos>

Children may choose which clip to follow. They would be used to these videos as we use them at school.

Joe Wicks also does a work out especially for children every morning at 9am.

<https://www.youtube.com/playlist?list=PLYCLoPd4VxBvPHOpzoEk5onAEbq40g2-k>

Maths:

Put a number into the blank space for your child to work out the answer.

The spider caught ten insects in its web. _____ were ladybirds.
How many were aphids?

A busy bee collected pollen from _____ daffodils and some from
_____ roses. How many flowers did the bee visit?

The children should be able to read the question and note the keywords then write a calculation.
They can use their number bonds knowledge to work it out or jottings to help them.

RE: Worship at Home

Shabbat is a special day of rest for most Jewish people. Watch how Jewish people get the table ready to celebrate Shabbat.

<https://www.youtube.com/watch?v=ucEIPOxR-bs>

What artefacts are used during Shabbat?

- White Candles and holders for them
- A special Kiddish cup for wine
- Bake Challah which is a special bread

Ask your child to draw and label artefacts, then ask them “Who would use these artefacts?” and “What day do Jewish people celebrate the Shabbat special dinner?”
