Whole School Attendance Last Week—94.7%

Dear Parents/Carers,

The children have enjoyed wearing red today to support Comic Relief and hopefully lots of money will be raised. If you would like to donate you can do so here <https://donation.comicrelief.com>

This week Year 1 visited St Dunstan's church where Reverend Anne told the children about Easter. They also looked at the stained glass windows and church font. Year 2 have investigated where the grass grows best around the school site and the reasons why.

Reception have been drawing baby animals born in Spring like lambs and ducklings and Nursery children planted grass seeds to make grass heads. The Centre have made playdoh dinosaurs and drawn cave pictures.

The total book sales at the Book Fair last week was an amazing £2296.06. This means the school gets £1377.64 to spend on new books for the children. Thank you to those that were able to buy books.

Please make an Easter bonnet with your child for our next fundraising activity. To enter the competition it is £1 per child, details are on page 2.

Best wishes,
Angela White | Headteacher

The attendance bears are awarded to the classes with the highest collective attendance.

Congratulations to the children in Rocket class (99.0%) and Rosemary class (97.2%)

They won the bears last week and can wear their own clothes on Friday 22nd March.

World Oral Health Day - 20 March 2024

World Oral Health Day

Maintaining good oral health is important at every stage of your life. No matter what age you are, caring for your mouth and looking after your oral health is important. A lesser-known fact is that poor oral health is associated with increasing your risk of developing other serious health conditions such as heart disease or diabetes.

Good oral hygiene habits should be set from a young age. We encourage parents and caregivers to take their children to the dentist and teach them how to care for their teeth and gums.

As you go through life, you should continue to brush your teeth twice a day and floss between your teeth. Cut down on sugar and continue to go for your regular dental check-ups.

The British Society for Paediatric Dentistry has worked with Dr Ranj to produce a series of helpful videos on how to look after your teeth.

Visit: www.bspd.co.uk/Kidsvids

Prevention is key: Brush twice a day with fluoride toothpaste, reduce sugar and don't forget to visit the dentist.

The NHS website has lots of useful information about how to look after your teeth and gums:

www.nhs.uk/live-well/healthy-teeth-and-gums
